# DARSHAN P

Software Development Engineer | Backend Developer | Full Stack Developer

+91 9380139409 | darshandarshanp10@gmail.com | LinkedIn | GitHub | Portfolio | Bengaluru, India

## Professional Summary

Software Developer with a B.Tech in Electronics and Communication Engineering from UVCE, Bengaluru, and hands-on experience building full-stack web applications and RESTful APIs. Proficient in JavaScript, React.js, Node.js, Express.js, and Python, with knowledge of SQL, PostgreSQL, FastAPI, and database management. Strong foundation in DSA, OOP, and software development, with a focus on writing clean, maintainable code and building reliable, scalable applications..

## Technical Skills

- **Programming Languages:** Python, JavaScript (ES6+), C, C++
- **Frontend Development:** React.js, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Responsive UI Development
- **Backend Development & APIs:** Node.js, Express.js, FastAPI, RESTful APIs, Backend Services, API Integration, Authentication, Authorization, Django Fundamentals
- **Databases & SQL:** PostgreSQL, MySQL, MongoDB, SQL Queries, Database Design, Schema Design, CRUD Operations
- **Tools & Deployment:** Git, GitHub, npm, Docker Basics, Linux Basics, Vercel, Render
- **Additional Technical Skills:** LLM API Integration, Debugging, Data Structures and Algorithms, OOP, DBMS

## Internship Experience

**Full Stack Development Intern – Pratinik Info Tech** *2026 | 2 Months*

- Developed full-stack e-commerce functionality using React.js, Node.js, Express.js, and MongoDB, implementing REST API endpoints and database operations for authentication, product search, filtering, cart, and order management.
- Integrated frontend checkout components with backend order and transaction handling, implementing Razorpay and Cash on Delivery (COD) workflows.
- Built a responsive admin dashboard for product, inventory, and order management, integrating React.js interfaces with backend REST APIs.
- Integrated Cloudinary for image uploads and delivery, and deployed frontend and backend services using Vercel and Render.
- **Live Applications:** User Portal | Admin Dashboard | Backend API

## Projects

**CareerPilot AI – AI-Powered Career Assistant** *React, TypeScript, Python, FastAPI, MySQL, LLM APIs*

- Developing a full-stack AI-powered career assistant using React.js and TypeScript for the frontend and Python FastAPI for backend services and REST API integration.
- Working on LLM API integration for AI-assisted career guidance and career-related workflows, connecting frontend components with backend application logic.
- Planning structured data storage using MySQL and developing modular application components to support maintainability and future feature expansion.
- **GitHub:** CareerPilot-AI Repository | **Live Demo:** Deployed Application

**Airbnb Clone Web Application** *Node.js, Express.js, MongoDB, EJS, JavaScript*

- Developed a full-stack property listing application using MVC architecture, RESTful routes, CRUD operations, database schema design, favorites, and responsive EJS views.
- Implemented session-based authentication and authorization, integrating backend application logic with database operations and deployed the application on Render.
- **GitHub:** GitHub Repository | **Live Demo:** Deployed Application

**Smart Task Manager** *HTML, CSS, JavaScript, LocalStorage*

- Developed a task management application with priority categorization, overdue highlighting, task filtering, and status-based organization.
- Implemented JavaScript event handling and LocalStorage persistence to maintain task data across browser sessions.
- **GitHub:** GitHub Repository | **Live Demo:** Deployed Application

## Education

**University Visvesvaraya College of Engineering (UVCE), Bengaluru** **2022 – 2026**
B.Tech in Electronics and Communication Engineering **CGPA: 8.55/10**

## Achievements

- Solved 75+ Data Structures and Algorithms problems covering arrays, strings, linked lists, stacks, queues, trees, hashing, sliding window, sorting, and searching.
